OFFER \$27,500,000 GOODYEAR BONDS

Syndicate to Float Company's Ten Year 8 Per Cent. Debentures To-morrow.

A banking syndicate headed by Dittor Read & Co. will offer to-morrow \$27, ber Company's ten year 8 per cent. debenture sinking fund bonds at a price around par. They do not represent new financing by the company because they were issued in May under the plan of reorganization and have been outstanding ever since, although not before offered to the public for subscription. The banking syndicate includes the following: The National City Company, Lee, Higginson & Co., Blair & Co., Inc.; White, Weld & Co., Kissel, Kinnicutt & Co., A. G. Becker & Co., the Union Trust Company, Cleveland, and Redmond & Co.

Co.

A feature of the bond is the provision of a cumulative sinking fund to retire the bonds annually up to 110. All bonds not retired by the sinking fund before maturity will be paid at 110. The trust agreement also provides that the company will create no other security issues ranking ahead of or equally with these debentures (excapt purchase money mortgages or issues to refund the first mortgage bonds) unless its net quick assets total 150 per cent. of all its liability, including the debentures.

Although the public ocering of the bonds was a subject of gossip in banking circles yesterday, the price of Goodyear 8s, held by the public, was unaffected the 8s closing at 110% in contrast to a final of 111 on Saturday. The 8s were brought out at par.

believe, to the working out of the Administration's programme for the funding of the national debt and successive Treasury moves in bringing short term securities offered to lower and lower interest levels. Government economy is also believed to be a factor.

The rise of a single point in the value of Liberty bonds in the market, officials point out, means millions of dollars to the holders of the bonds scattered through every section of the United States. Weltory notes are selling nearly and the section of the United States and the section of the United States went above 535. As few weeks ago most Liberty notes, War Savings stamps and other issues will mature next spring. Secretary of the Treasury Mellon is working out plans to meet that big demand for payment.

It is probable that the maturities will be met largely by the issuance of short term bonds to enable the Government to set cash to take up the Victory notes. The Government to begin the Saving stamps and other services and the second states with which it is alle to borrow.

Treasury Department records show the rapid progress with which this anaton's national war debt is being retired. A national war debt is being retired. A national war debt is being retired. A national war cept to borrow.

last week, the trading in the local gray goods market yesterday was very quiet. Demands on medium weight cotton goods appear to be satisfied for the time being. Heavier weight cotton goods used by the cutting-up trade apparently have been affected by the threatened strike of garment workers and has made the future of those goods very uncertain. The milis are still firm, but there is no active demand for gray goods.

Waterproof Coats Doing Well.

Something in the nature of a small boom is being experienced by dealers in waterproof garments. The demand is exceptionally heavy in children's coats, the plain black rubber coat having the most sales. A special line of children's waterproof garments is being introduced by local dealers with the view of meeting the expected holiday demand. Their prices will range from \$2.50 to \$7. A brisk business is reported in gabardine, tweed, cassimere and Asia cloth coats for men, the prices of which have dropped 25 to 40 per cent. In the last four months.

Quiet Piece Geods Buying.

That manufacturers of shirts are operating with great care and have operating with great care and have taken on only a conservative amount of business for spring delivery was the opinion expressed by Mark E. Goldberg, counsel for the Associated Shirt Manufacturers, yesterday. Manufacturers, according to Mr. Goldberg, believe that the present price of piece goods is too high, and that the buyers who are in the market are unwilling to purchase shirts at the prices which are based on the present cost of piece goods. For that reason manufacturers are of the opinion that the price of piece goods must come down to meet the prices which the public is willing to pay for made up shirts. The prevailing tendency among buyers, as stated by Mr. Goldberg, is to purchase white and tan colored plain shade pongee shirts. Flannels are being bought freely, especially of the olive drab and khaki shade government flannels. Soft collar shirts are said to be in fair demand.

Motheroof Wool Invented. Under the name of "Eulan" a new product of the German chemical industry has been placed on the European market. Its use, its advocates claim, will render wool mothproof. According to manufacturers acquainted with the process, the base of the new produch appears to be a certain yellow dye

I warren Tax	as mar	tius yellow,	which can be
parati	vely low	cost. It is	claimed that
